THE SWORD INTERVAL

BY BEN FLEUTER

FALL!

Oh no
no no no!

Whoa man!
Whoa!

I'm -- I'm sorry but she's gone. She's gone.

Fail didn't assume that about *you*
She didn't leave *you* to die

Your friend just... did what she did to get us out of there. If we...
I'm sorry sir but if we rush back in after her then she did it for nothing

You're right.
She'd want you three to be safe.

And she'd want me to lead you to safety.

But I'm going to have to split the difference
You go ahead I think... someone's been trying to show me something

Jesus! Troy, stop him!
